THE WORLD-Spectator REASONS TO Shop Locally

It builds a unique culture

Local businesses give their communities a distinct character with products, service and job opportunities

Reduce your environmental footprint

Local businesses tend to shop within the community. This cuts down on pollution, sprawl and congestion

Your money stays local

Money from local taxes goes toward services like street repairs, fire protection and trash collection. These services are integral to a healthy, well-run community

build, strengthen and grow your community

If every person who reads The World-Spectator this week spends \$50 a week locally instead of in the city or online. That will inject **\$52,000,000** into our local economy each year!

what's \$50 a week?

- It's a case of paper for your business bought locally rather than in the city
- It's one meal out in the local area, not in Brandon, Yorkton, or Regina.
- It's one piece of clothing bought in a local store and not online.
- It's one less weekend trip to the city over the course of the year, with that weekend spent checking out something in the local area instead

Take the \$50 challenge and support your community!

THE WORLD-Spectator

The Ripple Effect

when you shop local

You Benefit from Expertise

The perfect running shoe. The new toy that's certain to delight. The fantastic novel that you hadn't heard of. The best tool for the job. Get the right thing and save time by relying on the expertise of local retailers.

You Connect with Your Community

Shopping locally means bumping into friends, enjoying lively streets, playing in the toy store and trading neighborhood news with the people behind the counter. Local businesses make communities work.

You Strengthen Your Local Economy

Local retailers hire local people, pay local taxes and source goods locally. When you shop local, you expand opportunity where you live.

You Create a Community

Starting a small business has long been a pathway to the middle-class. By supporting local entrepreneurs, you invest in a future that works for all of us.

Shopping at a locally-owned business starts with you!

SUPPORT LOCAL BUSINESSES

2020 EDITION

Where you spend your shopping dollars matters!

I have always believed strongly that our choices as consumers help to shape the world around us. Where we choose to shop, where we spend our money makes all the difference. Some people have their favorite chain stores they like to support, others go out of their way to support mom and pop stores, buying whatever they can from the stores in their local community, stores in surrounding communities, from their friends and neighbors, and from the Hutterites down the road.

Where we choose to shop makes more of a difference now than ever. There have always been options for people. They have always had the local option or the other option.

134 years ago, the pages of this newspaper advertised the local stores where people could buy their goods, but some chose to order everything from the Eaton's catalogue and pick up the parcels at the train station. (You could even buy a pre-fab house kit from the Eaton's catalogue back then.)

Eaton's has long since been replaced by other competitors to local businesses—the big box stores in the cities and of course online shopping.

Where people decide to spend their money has a big impact on their communities, especially smaller communities, where every dollar spent locally is important to the businesses in your community.

Those local businesses employ your friends and neigh-

Kevin Weedmark

bors, pay property taxes to support your community, and support everything from fundraisers to your children's hockey team to the community recreation facilities that make your community great.

The people of Elkhorn found out how important their shopping habits are when Twin Valley Co-op announced the closure of the home centre in Elkhorn, then changed its decision and will keep the home centre open after a community meeting where it was emphasized how important local support is.

Twin Valley is willing to keep the store open, but will be watching levels of local support with the hope that more support comes through for the local home centre.

A while back, we started a campaign to remind people how important it is to shop locally.

We asked our readers to take the \$50 challenge!

The idea is simple, and the numbers are amazing! If

every reader of the World-Spectator spends \$50 a week locally instead of in the city or online, that will inject \$52,000,000 into our local economy each year! \$52 million!

What's \$50 a week? It's a case of paper for your business bought locally rather than in the city.

It's one meal out in the local area, not in Brandon, Yorkton, or Regina. It's one piece of clothing bought in a local store and not online.

It's one less weekend trip to the city over the course of the year, with that weekend spent checking out something in the local area instead—the Sportsplex, the cross-country ski trails, the snowmobile trails, or a local event being held in your area.

Our monthly Plain and Valley publication goes to a huge area. If every person in the area covered by Plain and Valley spends \$50 a week locally instead of in the city or online, that will inject \$169,000,000 into our local economy each year!

And look at the difference it makes! Look at the jobs provided by our local businesses, and look at the donations these businesses make to our communities (the grand totals are on the front of the section).

The jobs and donations by the businesses in this section are a testament to the value of supporting your local businesses.

The future of your community is in your hands! Take the \$50 challenge and support your community!
